11/10/2016	75
28/03/2017	50
28/06/2017	75

Vincent was 6 years old at the last weigh-in, he is now in **Pre-unit** class and hitting the **75th** percentile for height and weight; this is a bit different to sitting on the **3rd** percentile when he was in Baby Class.

The cost of a bowl of **porridge** is just **3p** per child, it costs just **£2.50 a week** can give Vincent the **nutrition** he needs.

The average **family income** is just **£1.25 a day**- how could they perceive to feed him all he needs if he wasn't attending school? Knowing that he was to have steady meals when **attending school** was a relief to Vincent and his family, it helped him to stay in **education** and attend school each day.

Vincent has been a familiar face around the school, he keeps cropping up in photos with his peers. The UK team has seen him grow and develop over the years.
